

Statement on Pro-life

Archdiocesan Communications Commission, Port of Spain, January 15, 2005. The following pro-life statement was adopted at the Second Session of the Synod of the Catholic Church on the afternoon of January 15, 2005.

The Catholic population stands in solidarity with the unborn and all who are threatened by the CULTURE OF DEATH. We stand firmly against abortion, euthanasia and all other practices that seek to eliminate the fundamental human RIGHT TO LIFE.

The work of those who propagate the culture of death in our country of Trinidad and Tobago as well as in the wider Caribbean communities must be condemned.

The Catholic Church stands united with all those who oppose the actions of those who wish to destroy life through the legalisation of abortion in our Caribbean countries and the promotion of other aspects of the culture of death.”
